Introduction

We are pleased to offer the students and staff of SD 8 (Kootenay Lake) access to the district computer network resources, electronic mail and the Internet. Our computer networks are a tool to facilitate learning and work in the District. These networks users with the opportunity to work and learn in the technological work in which we live. They provide access to online resources enabling integration in all areas of learning. To use these resources, all users must sign and return this form. Those under the age of 19 must receive parental authorization.

Parents and Guardians please read this document carefully. Review its contents with your daughter or son, and sign and initial where appropriate.

Any questions or concerns about this permission form, or any aspect of the computer network should be referred to your school Principal or the District staff overseeing Technology.

General Network Use

The network is provided for students and staff to conduct research, complete assignments, and communicate with others. Access to network services is given to users who agree to act in a considerate and responsible manner. Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Access is a privilege – not a right. As such, general school rules for behavior and communications apply; users must comply with district standards and honor the agreements they have signed. Beyond the clarification of such standards, the district is not responsible for restricting, monitoring or controlling the communications of individuals utilizing the network.

Internet/World Wide Web/E-Mail Access

Access to the Internet and e-mail will enable students and staff to use thousands of libraries and databases. Within reason, freedom of speech and access to information will be honored. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make the Internet access available to further educational goals and objectives, students may find ways to access other materials as well. Filtering software is in use, but no filtering system is capable of blocking 100% of the inappropriate material available on the Internet. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, SD 8 (Kootenay Lake) supports and respects each family's right to decide whether or not to apply for access.

Publishing to the World Wide Web

Student work may be considered for publication on the World Wide Web. Where such publishing identifies the creator, it requires parent/guardian permission. Unidentified photos (related to student achievements and participation in school activities) and student projects may be published on a school's website. If you do not want your child's photo or work to be published on the website, please indicate this on the Parent Permission form.
