# Participant Feedback: How would you rate ASIST? (average out of 10)

## Slocan Participant

"Very informative. Although it is an emotional and difficult topic, I felt safe and held both by our instructors as well as fellow students."

## Creston Participant

"Thoroughly enjoyed the training. Level of expertise was excellent. It was engaging, thought-provoking and certainly educational... Would highly recommend to all professionals to take."

## Nelson Participants

"This was the most valuable workshop I have been to in the past five years."

"This has been such an amazing learning & sharing & connecting experience."
