Defining Public Engagement...

	Inform	Consult	Involve	Collaborate	Empower
Public Participation Goal	To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, and/or solutions.	To obtain public feedback on analysis, alternatives, and/or decisions.	To work directly with the public throughout the process to ensure that public concerns and aspirations are consistently understood and considered.	To partner with the public in each aspect of the decision, including the development of alternatives and the identification of the preferred solution.	To place final decision-making in the hands of the public.
Promise to the Public	We will keep you informed.	We will keep you informed, listen to you, and acknowledge concerns and aspirations, and provide feedback on how public input influenced the decision.	We will work with you to ensure that your concerns and aspirations are directly reflected in the alternatives developed, and provide feedback on how public input influenced the decision.	We will look to you for advice and innovation in formulating solutions, and incorporate your advice and recommendations into the decisions to the maximum extent possible.	We will implement what you decide.

Outcomes...

The outcome should clarify the purpose of the public engagement and define why it matters, clarifies the context, and sets a clear direction forward. It should be done publicly.

Celebration...

Contributors should feel heard and that their contribution has had impact. This can be done through a public facing process on the district and school websites:

- **FAQs**
- **Videos**
- **Posted correspondence and questions**
- **Thank you cards and honorariums**
