B. Strategic Plan Public Engagement

The Superintendent outlined the Strategic Plan Public Engagement as provided in the agenda and presented the process to update the Strategic Plan. This will articulate the Board’s vision and mission, values, and priorities for Education in School District 8 (Kootenay Lake). The process will include public engagement and in each stage of the engagement process SD8 will keep partners informed, listen to and acknowledge concerns and aspirations, and provide feedback on how partner input influenced the Strategic Plan.

C. Framework for Enhancing Student Learning

The Superintendent invited the Director of Instruction – Innovative Learning, B. Eaton to present the Framework for Enhancing Student Learning. District goals are aligned with partners in Education such as the Ministry of Education and Childcare. Director Eaton presented data levels for decision making such as school surveys. The goal for Enhancing Student Learning is that students will meet or exceed curricular expectations in areas like literacy and numeracy proficiency, or career development. Proficiency in these as well as postsecondary transitions can be indicators for the outcome of Student Learning. School District 8 (Kootenay Lake) aims to increase graduation rates, gain parity between Indigenous and non-Indigenous learners, and provide support to students with diverse needs. The 2022-2023 School Learning Plans have a new structure where the spiral of inquiry is embedded throughout.
