

## **AP 4211: Scent Considerate Environment**

Health concerns may arise from exposure to scented products. To support employees and students to work in a safe and healthy environment, the district seeks to establish a scent considerate environment.

1. Employees, students, volunteers and visitors to the school or workplace shall refrain from using scented products and devices in district facilities.
2. Employees, students, volunteers, and visitors will be made aware of the effects of scented products on other persons through signs posted in buildings, informational material, orientation, and training.
3. Principals or building supervisors who supervise employees and/or students who have scent-related allergies will ensure that employees or students who wear strong scents are asked to reduce or eliminate the use of those products.
4. The use of smoke machines is not recommended in district facilities.
