The International Student Program recruits partner agents and welcomes students from around the globe. The program fosters social, cultural, and economic benefits for communities in School District No. 8 (Kootenay Lake) (SD8).

The program also offers opportunities for international students to participate in SD8's learning, school, and community environment.

In addition, the International Program is in alignment with the SD8's Strategic Plan, and follows district policy and provincial legislation.

ROLES & RESPONSIBILITIES

SD8's international team consist of the following educational partners:

- Superintendent: oversees International Program.
- Director of Instruction - Curriculum, Instruction, and Assessment: provides strategic-level direction.
- District Principal: develops educational partnerships and provides operational coordination and oversight. Acts as the legal custodian for international students.
- Program Coordinator: performs operational tasks and manages program registration.

FINANCE

Budget

The District Principal overseeing International Education prepares an annual draft preliminary budget. The budget is based on enrolment projections for the next school year reviewed by the Director of Instruction - Curriculum, Instruction & Assessment and is forwarded to the Secretary Treasurer by April 1st. The budget guides the development of the following year's draft budget plan. A finalized budget is prepared by June 15th.

Fee Schedule

International students pay tuition fees to attend school in the school district. The fee amounts are established by the Secretary Treasurer, by December 15th of each year for two subsequent years.

Fees are based on the cost of providing an education and cultural experience to an individual student. Fee structures are recommended by the Director of Instruction - Curriculum, Instruction, and Assessment, to the Secretary Treasurer and approved by the Superintendent.

All fees must be paid in full and received by the district prior to the student's commencement of studies in the school district.

If an applicant does not come to Canada or decides to leave the district for personal reasons, a portion of the paid tuition fee may be refunded. All requests for refunds must be made in writing. Refunds will be granted on the basis of the refund policy outlined on the [International Student Program Application](#) and outlined in the districts [Refund Policy](#).

A refund will not be paid to students removed from the program by the district due to, but not limited to, violations of school or program rules or requirements. Examples of conduct giving rise to the removal of a student from the district includes:

- chronic absenteeism;
- the use of, and/or involvement with, illegal/recreational drugs or alcohol;
- flagrant misbehavior, or;
- the identification of an intentional misrepresentation on the student's application for enrolment not adhering to School or District Code of Conduct.

Students removed from the program by the district will be returned to their natural parents, at the student's expense, by the first available transport.

TRAVEL

International Programs are built on the relationships district staff have with partners overseas including agents, parents, alumni, and others. These relationships build and develop over periods of time and frequently require face-to-face meetings. In many cultures, business is simply not done without a basis of a business ‘friendship’ where significant trust is built.

International Program travel can involve:

- Extensive pre-trip planning and organization.
- Being away from home, office, and family for up to a month or more.
- Flying long distances across time zones.
- Visiting multiple cities and countries in a single trip.
- Adjusting to different languages, foods, cultures, and laws.
- Traveling solo.
- Managing regular office work plus additional tasks abroad.
- Keeping up with health and fitness routines while away.
- Working evenings and weekends.
- Knowledge of airlines, hotels, currencies, visas, health requirements, and local transport.
- Managing emergencies: airline issues, political unrest, health problems, natural disasters.
- Facing increased risks, such as assault, robbery, fraud, and food or water illness.

Authorization

The Superintendent authorizes travel three months prior to departure for employees. Employees submit a recruitment plan prior to booking trips.

- Employees collaborate with the school district’s authorized travel agent to book their trip in the most fiscally responsible manner. To alter a trip based on personal preference, the employee must first schedule their trip with the travel agent and submit this to the Director of Instruction - Curriculum, Instruction & Assessment as part of a travel summary. Booking adjustments can be made based on personal preferences and must be made within 24 hours of the original booking. It must be demonstrated that these changes did not incur cost to the International Program, by submitting both the original and adjusted travel itinerary.
- If a recruiting trip ends on a Friday, the employee may extend their trip to the end of the weekend. If this occurs, the employee or contractor must book the original trip with a return date prior to the weekend and change the ticket within 24 hours at their own expense.
- Employees may take vacation or leave of absence time to extend their recruiting trip, as per their contract and authorization from their supervisor provided these guidelines have been met. All additional costs of this extension must be detailed and approved by the Director of Instruction - Curriculum, Instruction & Assessment.
- Employees must not allow personal objectives to interfere with their ability to perform their

recruiting and marketing duties.

- If the Employee is travelling with a companion, they must do so with the prior authorization of the Director of Instruction - Curriculum, Instruction & Assessment.
- Hours of work are determined by event and agent bookings and are scheduled to minimize trip length and cost.
- Employees must be mindful of their reputation and of the scrutiny of public perception in the use of public funds. The use of social media to post personal moments while on a recruiting trip is not appropriate.
- Employees must demonstrate that they have appropriate medical insurance and vaccinations for travel to their destination. This will be reviewed and approved by the Director of Instruction - Curriculum, Instruction & Assessment.

Expectation

International students must always conduct themselves in an acceptable manner, under the authority of the district.

Consequences

An international student that contravenes either the School District No. 8 (Kootenay Lake) or the Homestay Codes of Conduct shall be subject to the following progressive discipline:

First Contravention

- For matters that arise at the student's school, the student will be subject to progressive discipline, reflective of the age of the student, and the severity and frequency of the unacceptable conduct. The discipline will be fair, consistent, and meaningful, for the purpose of making restitution and enhancing student responsibility and self-discipline. The School Principal will notify the Homestay parents, District Principal of International Education, and other agencies as deemed appropriate for any incident. The District Principal of International Education will contact the agent, who in turn contacts the natural parents.
- Where the student's behavior at school or in the homestay is deemed to have a significant detrimental impact the District Principal of International Education will be contacted. The District Principal of International Education shall provide documentation of the behavior, along with a written warning that a further offence will be reason to remove the student from the homestay, and to dismiss the student from school. This documentation is placed in the student file and copied to the agent.

Second Contravention

- Upon report of a second incident of unacceptable behavior that is deemed to have a significant detrimental impact on the homestay family or school, the District Principal of International Education shall seek approval from the Director of Instruction - Curriculum, Instruction, and Assessment and the Superintendent to remove the student from the school, revoke Custodianship, and the student's Study Permit;
- If approved, the district informs the agent that the student is dismissed and cooperates with the natural parents to have the student leave the district, at the earliest possible time. If approval is not granted, the Second Contravention shall be treated as the First Contravention.
- As per the published Refund Policy, tuition for the remainder of the school year will not be refunded. As per the published Homestay Agreement, two weeks of homestay payment will

be paid to the homestay family and the balance of homestay monies will be refunded.

Exceptional Circumstances

There are times when the behavior of an international student is so egregious that the student's participation in the International Program may be terminated at the first offence and at the discretion of the Administrators of the International Programs and the Superintendent without any refund of fees, and that the student may be sent home at the parents' expense if they do not adhere to the school district rules, standards, and instructions as set forth in the school's agenda, handbook and this Agreement, and any related policies or guidelines.

Examples of conduct giving rise to the removal of a student from the district include but may not be limited to:

- chronic absenteeism;
- the use of, and/or involvement with, illegal/recreational drugs or alcohol;
- flagrant misbehavior, or;
- the identification of an intentional misrepresentation on the student's application for enrolment.
