

2.2.3 Parent/Guardian Consent for District Consultation

Date _____

Dear Parent/Guardian,

In supporting students with their progress, the school-based team sometimes requests assistance from the District-Based Team or the District Inclusion Support Coordinator.

The goal of this consultation is to assist the school team in determining supports and strategies to best support your child at school.

Consultation can include meeting with school staff, observing the student in the classroom, and/or working with the school team to create or update IEPs or support plans. You can ask your child’s teacher, IST, or principal for the details of the consultation for your child before signing this document.

_____ provide consent for my child,

(Parent Name(s) - Printed)

_____ to be reviewed via district consultation

(Student Name - Print)
